Gerald Paulsen,
President & Founder
Operation Horses & Heroes
Elgin, Illinois 60123

Dear Jerry,

Thank you for making and offering this program to military personnel (active or veteran), their families, and care givers. I was honored to be a part of this amazing program for the weekend.

This program offered a wide range of insight into everyday life of someone who is carrying issues that do not appear to have resolution.

The different equine exercises that I participated in showed me behavior through the horses that I did not actually see in myself. The horses had a tendency to act in the same manner as I did but without the facade that I used in order to mask my emotional state in certain situations. This program also allowed me to observe others who have been going through similar issues that I deal with on a daily basis. This program also helps me (us) understand that we as veterans are never alone.

I would recommend this program to any/all having personal, professional, relationship, and/or life issues. This program will forever remind me that I am never alone. It also has made me take a long hard look at what my future may hold.

This was a great experience for me, and believe that anyone, veteran or not, could benefit from this program. I would highly recommend this program to anyone that is dealing with any kind of problems in their life.

Respectfully,

Juice Majewski
